

assets/ Directory Guide

Shared Visual Assets & Sector Graphics

1. Folder Purpose & Architectural Role

The `assets/` directory contains bundled static visual graphics, category thumbnails, and card hero backgrounds used across the front-end portal pages. These files are bundled with the platform and rendered in citizen dashboard cards and landing page heroes.

2. File Breakdown & Dependency Matrix

File / Subdirectory	Detailed Description & Architectural Role
• <code>cat_power.jpg</code>	Thumbnail graphic for Power & Electricity infrastructure sector card displayed in Citizen Portal grid.
• <code>cat_roads.jpg</code>	Thumbnail graphic for Roads & Arterial Bridges sector card.
• <code>cat_transit.jpg</code>	Thumbnail graphic for Public Transit & Transport sector card.
• <code>cat_waste.jpg</code>	Thumbnail graphic for Waste Management & Sanitation sector card.
• <code>cat_water.jpg</code>	Thumbnail graphic for Water Supply & Drainage sector card.
• <code>citizen_card_bg.jpg</code>	Hero background banner image for the Citizen Portal access card.
• <code>dashboard_card_bg.jpg</code>	Background image for the City Official dashboard card.
• <code>gov_analytics_card_bg.jpg</code>	Background graphic for the Government Analytics card.
• <code>gov_dispatch_card_bg.jpg</code>	Background graphic for Municipal Dispatch & Engineer Assignment.
• <code>gov_gis_card_bg.jpg</code>	Background banner for the GIS Command Map card.
• <code>tracker_card_bg.jpg</code>	Background image for the Complaint History & SLA Tracker card.

3. Operational Notes & Usage Instructions

Used primarily by `static/js/citizen.js` (renderSectorCards function) and `static/css/styles.css`.
